Planning for your service

We will notify you as soon as we can as to which member of our clergy team will be conducting your service. They will then contact you to discuss the planning of the service and advice on hymns, readings and what a printed order of service should contain.

Rehearsal

Everyone involved with the service is welcome, but the most important people are the Bride and Groom.

The member of clergy conducting your service will arrange a rehearsal in church with you and this will normally take place in the week before your wedding day.
